

40367 Security Fundamentals

Duración del curso: 3 Días

Acerca de este curso

This three-day MTA Training course helps you prepare for Microsoft Technology Associate Exam 98-367, and build an understanding of these topics: Security Layers, Operating System Security, Network Security, Security Software. This course leverages the same content as found in the Microsoft Official Academic Course (MOAC) for this exam.

Perfil de público

The Microsoft Technology Associate (MTA) is Microsoft's newest suite of technology certification exams that validate fundamental knowledge needed to begin building a career using Microsoft technologies. This program provides an appropriate entry point to a future career in technology and assumes some hands-on experience or training but does not assume on-the-job experience.

Al finalizar el curso

After completing this course, students will be able to:

- Understand Security Layers
- Understand Operating System Security
- Understand Network Security
- Understand Security Software
